PROFESSIONAL SUMMARY

Cybersecurity-focused CIS graduate (May 2026, GPA 3.59) driven by understanding how systems work, where they break, and how to secure them. Active ISC2 Candidate and AWS Educate badge holder with a foundation in network security, ethical hacking, and digital forensics built through coursework, self-directed lab environments, and university research. Approaches problems by digging into the details and understanding the 'why' behind them — a mindset that translates naturally to identifying risks, analyzing threats, and finding practical solutions. Stays current with cybersecurity and privacy developments to better understand how real-world threats and trends shape the field.

EDUCATION

Florida Gulf Coast University – *B.S. Computer Information Systems, Cybersecurity Concentration* | GPA: 3.586 Expected May 2026
Coursework: Network Security, Ethical Hacking, Computer Forensics, Secure Business Applications, Cloud Solution Architectures, Systems Analysis & Design
Credentials: AWS Educate (Compute, Networking, Storage, Databases) | ISC2 Candidate | Self-study: TryHackMe, Hack The Box

TECHNICAL SKILLS

Cybersecurity	Network security, vulnerability assessment, incident response, threat analysis, digital forensics
Tools & Platforms	Wireshark, Autopsy, FTK, Kali Linux, VirtualBox, AWS (EC2, S3, VPC, RDS)
Programming / Other	Python, C++, SQL (familiar), HTML/CSS, Linux, MS Office Suite (Word, Excel, PowerPoint, Outlook)

PROJECTS

- Virtual Cybersecurity Lab**

Ongoing

 - Built a multi-machine VirtualBox environment (Kali Linux, Windows Server, Active Directory, Linux) simulating enterprise infrastructure for vulnerability assessment, privilege escalation, and incident response practice.
 - Continuously expanding lab scenarios to mirror real-world attack vectors and strengthen defensive security skills across network and host layers.
- E-Commerce Website Capstone**

Januray 2026 - April 2026

 - Built and deployed a full-stack e-commerce site (HTML/CSS, MySQL) to a live AwardSpace hosting environment with product listings, shopping cart, and checkout workflows aligned to business requirements.
 - Managed a live relational database and applied systems analysis principles to align technical implementation with business goals throughout the project lifecycle.
- IT Helpdesk Simulation (ServiceDesk Simulator)**

February 2026-Present

 - Practiced end-to-end helpdesk operations including ticket resolution, Active Directory user management, and remote desktop support in a simulated enterprise environment.
 - Navigated a virtual server room with switches, routers, and firewall configuration, and worked within a documented IT policy framework to simulate real workplace procedures.

EXPERIENCE

- AI Fellowship – Student Consultant** | FGCU Dendritic AI Institute

Fort Myers, FL • Jan 2026 – Mar 2026

 - Collaborated with faculty and peers to evaluate responsible AI integration in higher education, focusing on distinguishing human-centered learning outcomes from AI-assisted work.
 - Analyzed and proposed academic assignments to surface core competencies such as critical thinking, judgment, and applied understanding in AI-accessible environments.
- Lutgert Mentorship Program – Mentee** | FGCU Lutgert College of Business

Fort Myers, FL • Jan 2026 – Present

 - Selected for a structured mentorship program pairing students with professionals aligned to cybersecurity and technology career paths.
 - Participate in one-on-one mentoring sessions focused on career planning, technical growth, and industry expectations.
- Busser** | El Gaucho Inca Restaurant

Fort Myers, FL • Oct – Nov 2025

 - Supported high-volume dining operations in a fast-paced environment by clearing tables efficiently and maintaining a clean, organized environment.
 - Assisted servers and kitchen staff to maintain service quality and operational standards in a high-volume restaurant.

CAMPUS INVOLVEMENT

Technology Systems & Analytics Association Member	Jan 2025 – November 2025
FGCU Circle K International Member	Aug 2024 – Oct 2025
